According to a director in the Nadidrivan Course and in Utah Mines at St. Louis. Judge Morris Sommer returned ves-

During his stay at the Missouri metropolis the judge also presented another Park City proposition and when he left for home it was with instructions to land the property at once. In the meantime the wires were put to work, and when Judge Sommer reached his offices yesterday forenoon it was to find that an option on the ground had been executed and presented ready for his signature. He said it was too early in the game for him to disclose the identity of the property or the names of those behind the purchase, but he promised to release particulars during the next few weeks.

Judge Sommer said that the interest shown in Utah, and particularly Park City, mining enterprises in St. Louis was truly astonishing. He found nearly everybody at the Planters' reading the mining columns of the Salt Lake papers, and when it became known that he was from Salt Lake he was besieged on every hand for news concerning the mines of the various districts, and he took a great deal of pleasure in disseminating as much information as he could. Park City, he said, appeared to have the call, and he gave it as his opinion that much St. Louis capital would be invested there during the next few months.

EQUIPPED FOR WINTER'S WORK.

EQUIPPED FOR WINTER'S WORK Park City G. & S. Company's Buildings All Completed.

Manager Joe S. Free of the Park Manager Joe S. Free of the Park City Gold & Silver company's property, in the Snake Creek district, came down from the camp by way of Heber City yesterday morning. He stated during the afternoon that the new shaft was down twenty feet, all the way in as fine looking ledge matter as any one would wish to see, and he was most thoroughly convinced that fine ore would come in before any great depth had been attained.

A good whim is now in commission

A good whim is now in commission at the shaft and two shifts are pounding the hole down at a lively pace. During Manager Free's stay at the property the new boarding and bunk houses, whim house and stable were completed, and everything its commission. completed, and everything is now in shape for the winter's campaign. He expects to return to camp tomorrow morning.

Tintic Ore Shipments.

Another Company For the Park. Another Company For the Park.

Articles incorporating the Park City Bonanza Mining company, with Salt Lake as the principal place of business, were filed with the county clerk yesterday. The company has a capital stock of 300,000 shares, of the par value of 10 cents each. The officers are: E. P. Le Compte, president; J. Huff, vice president; C. S. Rolph, secretary and treasurer, who with E. Q. Knowlton and A. H. Cook are the directors. The company proposes to develop the following ruining claims situated in the Snake Creek mining district, Wasatch county: Sheet Anchor No. 1, No. 2, No. 3, No. 4 and No. 5.

Articles incorporating the Park City Bonanza Mining company, with Salt Captury, 5000g33%c; 1000g93½c; 1000g93½c;

Ore and Bullion. Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$125,700, as follows: Silver, lead, gold and copper ores, \$68,700; base bullion, \$57,000. The total for the month ending yesterday was \$2,142,840, an increase over September of \$538,540.

Metal Market. Silver—50%c per uonce.
Copper—11c per pound; New York,
\$11.60 to \$11.70 per 100 pounds.
Lead—\$3.50 per 100 pounds; New
York \$4.316

York, \$4.121/6. MINING STOCK MARKET.

Month's Business Was Larger at Declining Prices.

clining Prices.

The month on the mining stock exchange closed yesterday with the sale of 54,555 shares of stock for \$36,849.75. The month's totals were 1,829,278 shares and \$1,091,031.38, as against 1,576,017 shares and \$1,002,672.40 during the month of September.

While the volume of business done during October shows an increase, there is no use trying to disguise the fact that it has been done at steadily decilining prices. Election time, payment of taxes, the approach of winter and causes other than anything in the way of unfavorable reports from the mines may be assigned as the cause, for the month has been prolific of most substantial news concerning the physical condition of the mines and actively operated prospects in the various camps.

From Park City where unprecedent in the month at \$1.54.

From Park City, where unprecedented activity prevails and where several new producing mines are sure to be added to the list during the winter, most gratifying reports have been constantly received, while conditions at Tintic and Bingham have not been as encouraging in months.

For all that most stocks have suffered

precious metals and the number of her dividend-payers.

The condemnation suit brought by the Oregon Short Line against the Horn Silver company, for a right of way across the mining company's property at Frisco, this state, is causing a lively scrap between the contending parties in Judge Stewart's division of the Third district court. The mining company holds the surface ground as very valuable for a smelter site and the railroad company appears to be trying to compel defendant company to erect the plant in proof of its contention. Already much evidence has been introduced to show that the 125-foot wide strip is ample on which to construct a first-class smelter, while a number of experts have appeared for the railroad company in an effort to show the court that the mining company's premises are untenable. Up to date the mining company appears to have the best of the argument.

Page's Daily Market Letter.

Trading was active, but prices suf-tered. Wabash continued to decline but the reaction must come soon. Ajax, Ben Butler and Carisa-Sold a shade Ben Butler and Carisa—sold a shadelower. California sold to 33 cents and offers a good opportunity of getting in. Century sold up and then down, closing on the curb at \$5c. It looks as though some big block of stock was coming on the market. Comstock is dull and slow. Con. Mercur and Daly-West are quoted a little lower. Da'y sold at \$1.85½. Grand Central is easing off, too. Lower Mammoth sold at \$1.53 and May Day at 22½c. Star Con. is getting down where the gold strike found it. Uncle Sam is not very strong and Yankee so weak it don't sell. Daly-Judge is a little below \$10.00 and Naildriver strong at \$1.82½. New York is getting a little stronger and should sell to \$1.00. La Riene, Martha Washington and Little Chief are in distress.

This is a good time to buy stocks.

Surrender of Uribe-Uribe Has Dashed the Hopes of the Revolutionists in Colombia.

Colon, Colombia, Oct. 31.-A detachment of 1,300 government troops, com-manded by General Lucio Valasco, ar-rived here today from Savanilla, department of Bolivar, on board a French

partment of Bolivar, on board a French steamer.

The steamer also brought a telegram, which had been censored by the governor of the department of Bolivar, from General Uribe-Uribe to his wife at Bogota. This message was dated Rio Frio, Oct. 28, and said the writer was safe and about to sign a treaty of peace, to include the entire departments of Bolivar and Magdalena. General Uribe-Uribe said he expected to

It is understood that Admiral Casey

COLOMBIANS SEEM TO

cablegram was received at the navv department today from Admiral

"Panama, Oct. 30.—Three cars of ammunition came over yesterday, the balance lying at Colon will come later. My relations with General Perdamo most friendly. Bogota saluted my flag on arrival. Salute was returned gun for gun."

TRADING WAS PROFESSIONAL

COLORADO FUEL STRONG ON RU-MOR THAT THE WAR IS OVER.

tivity shown in a number of issues was clearly due to energetic pool huying. Today's business was not altogether confined to operations of this character, however, many traders taking the long side in the belief that the trend of events gives promise of better conditions. Advances were general at the opening, the gain in Manhattan being noteworthy. Baltimore & Ohio was another strong issue and Erie, Missouri Pacific, Canadian Pacific, Southern Pacific, Reading and St. Paul rose fractionally. St. Louis & San Francisco advanced a point.

Little was done in the industrial issues at any time during the day. Steadiness was shown by a number of these stocks, however, among them the United States Steel shares. Louisville & Nashville was weak at the outset and reflected more or long the stock and the content of the benefits that are expected to accrue from the recent change of control. On moderately large transactions the stock made a decline of over 2 points, but more than recovered this loss, making a net gain of 1%. Reading was another stock against which considerable pressure was shown, but all offerings were freely taken, and the stock made a gain equal to that of Louisville & Nashville.

Manhattan was the feature of the day, both in respect of activity and strength. The trading amounted to 77,000 shares, and a net gain of 2% oints was registered. Some of the ver, substantial speculative interests were said to be back of the move in Manhattan and one of the arguments advanced in its support was that the company will show a great reduction in operating expenses as soon as its electrical equipment is completed. Much of the Manhattan buying came from interests that were prominent in the recent Missouri Pacific pool.

A renewal of the demand for Colorado Fuel was accompanied by reports that inside difficulties had been settled. No confirmation was obtainable, but observers of the market regarded it as significant that other stocks with which these apparently conflicting interests are said to be identified were fairly

TROUBLE NEARLY OVER

ments of Bolivar and Magdalena. General Uribe-Uribe said he expected to reach Bogota shortly.

The news of Uribe-Uribe's surrender is well calculated to dampen the spirits of the revolutionists. The arrival of the 1,300 government troops this morning, the first installment of the reinforcements destined for the isthmus, is also another great setback to rebel hopes.

It is understood that Admiral Casey now authorizes the transportation on the railroad of Colombian troops and ammunition across the isthmus.

Last Wednesday a serious fracas all but occurred at the railroad station in Panama between American marines on guard there and government officials and troops. The Colombians tried to remove from the station six wagonloads of ammunition which had come in from Colon, but the marines prevented them from doing so. The ammunition was subsequently delivered to the government.

FLOURISHING

Legitimate Trade Not Disturbed by the Elections.

ONE SOURCE OF COMPLAINT

LACK OF MOTIVE POWER ON THE RAILWAY LINES.

New York, Oct. 31.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

legitimate business is not disturbed by the approaching elections. New labor tled by advancing wages, and the grad-ual improvement in the supply of coal has reduced prices and restored activincreasing as to the tardy movement of freight, miles of cars being stalled by the lack of motive power, and many roads refuse to accept further shipments until the blockades are relieved. Lower temperatures have stimulated retail sales of seasonable merchandise, but freet connections. but frost comes too late to seriously injure agricultural products. Liberal injure agricultural products. Liberal consumption sustains quotations in most lines, domestic demands being supplemented by large exports. Operating expenses of the railroads have increased in many cases to such a degree that net earnings are somewhat curtailed, but gross earnings for October thus far exceed last year's by 4.7 per cent, and those of 1900 by 13.5 per cent.

Undue significance is attached to the announcement that the Frick company will not advance next year's price for coke above \$3. Although this is in line with other conservative efforts of leading interests to prevent inflated prices, the probable influence on the outside market will not be great, as the bulk of the output will go to the various plants of the United States Steel corporation.

Meantime sales are being made at \$16 in extreme cases and the scarcity has closed more blast furnaces. The future course of the iron and steel industry will be largely influenced by this fuel shortage, much business being permanently lost to home producers, and prices in some departments already show the effect of disorganized conditions. Railway needs have not diminished, numerous large orders constantly appearing, while the pressure for locomotives is causing large premiums to be offered. Structural shapes for bridge and ship building are next in point of urgent demand.

Agreement on the tin plate wage scale may secure a lot of business that now goes out of the country, and store they contain no cocaine, that now goes out of the country, and store to work, and this condition gradually brought on catarrh of stomach, causing loss of appetite, poor digestion and a foul breath, which an advised me to try Stuart's Catarrh Tablets, and I took them for two months and was astonished to find how quickly they cleared my head, throat and stomach, and I have no hesitation in recommending them. They seem to get at the very root of the trouble, because since using them I have had not trace of catarrh."

Druggists sell Stuart's Catarrh Tablets at 50 cents for full sized package.

They can be carried in the pocket and used any time and as often as desired since they contain no cocaine, and this condition products and a foul breath, which an advised me to try Stuart's Catarrh Tablets, and I took them for two months and was astonished to find how quickly they cleared my head, throat and stomach, and I have no hesitation in recommending them. They seem to get at the very root of the trouble, because since using them I have had not trace of catarrh." sure for locomotives is causing large premiums to be offered. Structural shapes for bridge and ship building are next in point of urgent demand.

Agreement on the tin plate wage scale may secure a lot of business that now goes out of the country, and some reduction in prices is expected. some reduction in prices is expected.
Wire nails are also cheaper, but as a rule quotations are well maintained.
New England shoe manufacturers are receiving additional orders at fully sustained quotations. Leather is in better demand with prices firm . More interest has been shown in Chicago.

interest has been shown in Chicago packer hides at recently reduced prices, but the average of all grades is again lower.

Conditions at the cotton mills are healthy. It is early for supplementary buying of spring woolen goods and fall trade is finished, so that these divisions of the market are naturally quiet. Raw wool is very firm at the leading eastern markets which are

quiet. Raw wool is very him at the leading eastern markets, which are shipping freely to the mills.

AN IDEAL MEDICINE.

A New Discovery Which Cures All Forms of Catarrh.

The tablet is the idea! form in which administer medicine, but until re-ntly no successful catarrh tablet had er been attempted. There is now, owever, an excellent and palatable remedy for catarrh in tablet form, known as Stuart's Catarrh Tablets and sold by druggists, composed of the most recent discoveries in medicine for cure of catarrh and results from their

cure of catarrh and results from their use have been highly gratifying.

The old-time treatment of catarrh was in the form of inhalers, washes, douches, sprays, etc. Later on internal remedies were used with greater success, but being in liquid or powder form were inconvenient to use and like all medicines in liquid or powder form, lose their medicinal properties when opened or exposed to the air.

Stuart's Catarrh Tablets contain highly -concentrated antiseptics, Hydrastin, Blood Root and Red Gum, which kill the catarrh germs in the which kill the catarrh germs in the blood and mucous membrane, and in this respect are strictly scientific and modern, because all authorities are

catarrh germs right where they are

produced.

A prominent lawyer and public speaker of Pittsburg says: "I have been troubled with catarrh of the head and throat for twelve years. In this coughing, gagging, expectorating and sneezing every morning before I could settle down to work, and this condi-tion gradually brought on catarrh of

sired since they contain no cocain mercury or any other injurious drug.

Deliciously Good

these cold evenings -- our hot drinks--all kinds, but especially coffee and tea.

Didn't know we served splendid hot tea and coffee--did you?
